THE COMPACT, LOW-COST PUMP: IDEAL FOR MEDIUM-SMALL SYSTEMS

COMPACT AND LOW COST

The **989 series** is ideal for application where space and costs are key factors. The pump integrates perfectly with the Sumo and Mini Sumo range of electric pumps, from which it inherits the main features, such as: modularity, quality and performance. For these reasons, Series 989 represents the perfect solution for an extensive range of applications.

STANDARD EQUIPMENT

The standard version is ready equipped to satisfy the requirements in small-medium machine tools applications. The pump is complete with refilling filter, electric minimum level and a pumping element.

FITS YOUR APPLICATION NEEDS

989 pump series can fit the changing needs of your application.

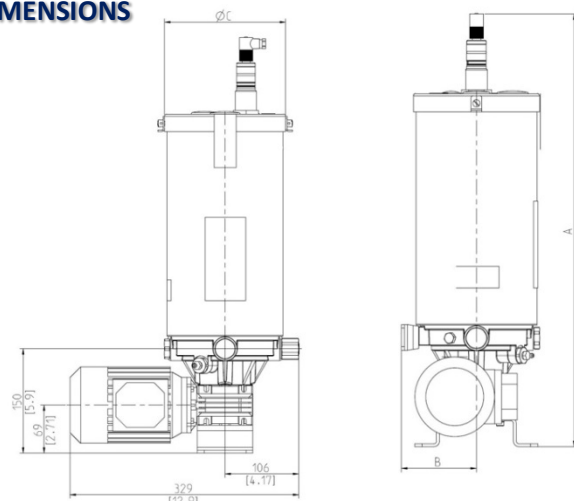

The availability of installing up to two pumping element (with fixed or adjustable delivery) gives you two different options: to triple the standard flow or connect three lubrication lines directly to the pump.
