

CAMSHAFT CONTROLLED PUMP - PISTON

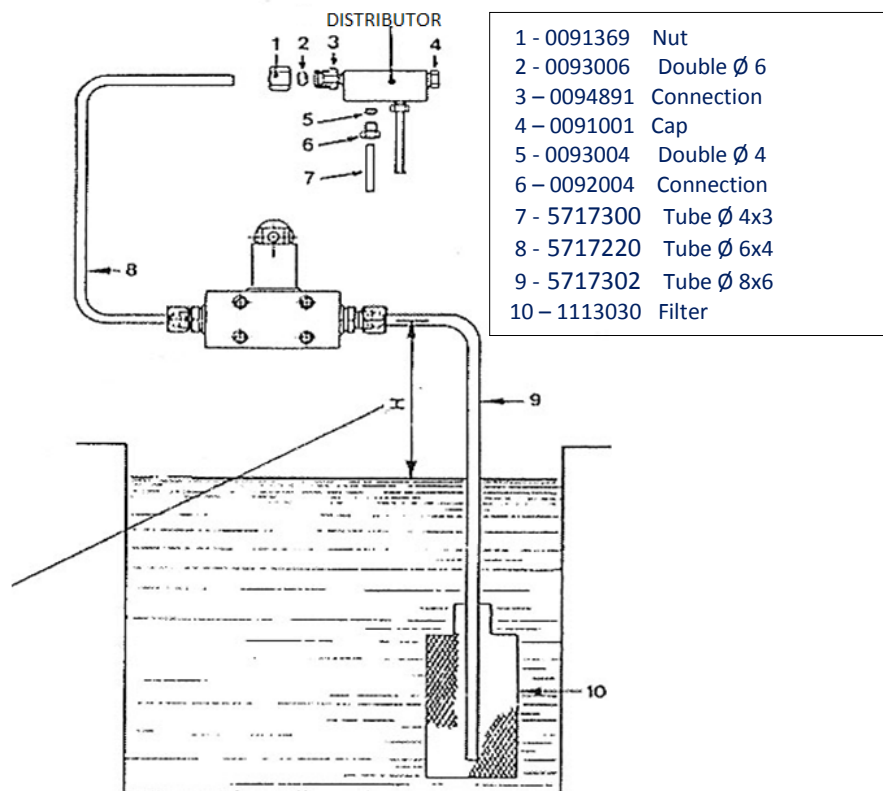

CAMSHAFT CONTROLLED PISTON PUMP

- pistons stroke of 8 mm
- - - - - pistons stroke of 6 mm
- · · · · pistons stroke of 4 mm
- pistons stroke of 2 mm

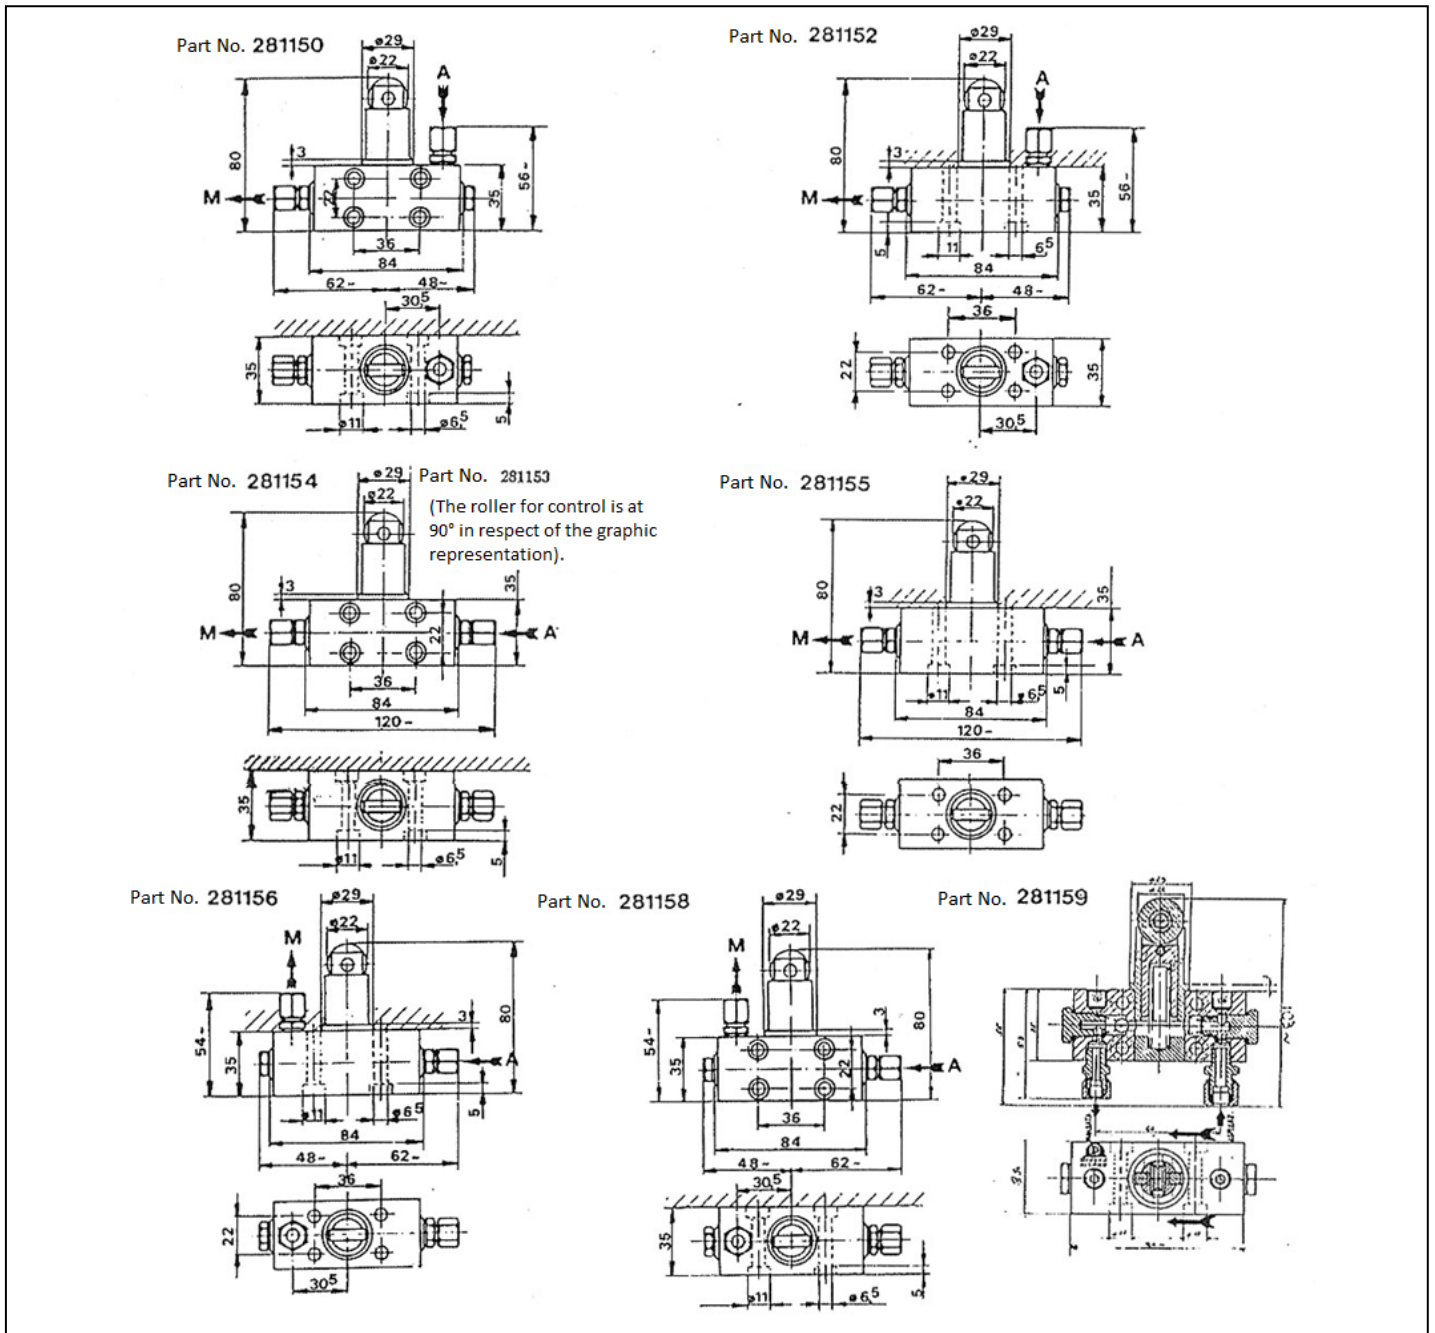

The pump is controlled by an eccentric or pulse camshaft. The maximum piston stroke is 8 mm. It must be ensured that the bottom dead centre of the piston does not touch the bottom of the pump. The diameter of the camshaft should not be less than 60 mm.
