

Gli elementi modulari SMO e SMX che prevedevano un sensore integrato, sono stati sostituiti da un sistema composto da un elemento modulare standard più il sensore.

Per realizzare un sistema di controllo del dosatore, bisognerà ordinare separatamente un elemento dosatore modulare (SMO, SMX) + il sensore + il connettore, come illustrato nella tabella che segue.

CODICE OBSOLETO	DESCRIZIONE	EL.MODULARE SMX/SMO	SENSORE	CONNETTORE
